### **Personal Statement:**

I am 19 years old, currently at University studying Football development and coaching. I am a confident person who likes to mix with many different age gaps. I am a team worker but can also perform a task on my own. I work part time in a nightclub as a bartender. This includes serving customers and meeting their needs, cleaning and handling monies. I also have casual work as a steward at public events including horse racing and concerts, which brings me into contact with members of the public. This includes collecting monies, assisting the public with any general enquiries and public safety. I currently play football for Exeter Tedburn and St Mary's Ladies along with Futsal and football for Plymouth Marjon University. Moving on, I am coaching+ managing an 8-10 year old girls football team at Plymouth Marjon football club. I am very patient and I enjoy getting stuck in on anything that I can do.

### **Qualifications:**

GCSE's :

English Language	C
English Literature	B
Maths (higher)	C
Btec Science	Pass
Science	D
History	F
Spanish	C
Pe	D
Art and design	Distinction

A Levels:

Triple BTEC Sport	Distinction, distinction, merit.
-------------------	----------------------------------

### **Key skills**

Adaptable, able to learn quickly and educate others.  
Strong relationship building with skills whilst working with others.  
Able to overcome challenges effectively and quickly.  
Able to plan, prioritise and organise tasks.  
Committed to teamwork.  
Able to communicate to different types of people.

### **Work experience**

I did work experience at Leigham Primary school for one week. Throughout my week I was a PE teaching assistant and I also worked in the classroom. On my second day, I was left with a class of

year 1 to run a PE lesson with them to prepare them for sports day. Throughout the PE I taught all sorts of sports, from football to throw and catch. Rugby to bean bag toss and throw. When I were in the classroom, I helped teach English and Maths and I worked specifically with children who needed extra attention and a helping hand. In order to help them, I wrote for them, helped them talk about their ideas and I tried to help them grow in confidence with their skills.

Within the season of 2015 to 2016 I was coaching and managing an under 13 girl's football team and unfortunately due to players commitment the team dispended. This role allowed me to enhance my leader and communication qualities whilst also allowing me to think on my feet in high pressured situations.

Whilst at University I have had opportunities to run a 'gym club' for the local pre-school in which they visit once a week and we work on basic fundamental movements.

### **Interests**

I enjoy playing football and futsal for Plymouth Marjon University. In my free time I like to socialise with friends and family.
